What is a Spirit Bear?

The Spirit Bear, scientifically known as *Ursus americanus kermodei*, is a rare subspecies of the North American black bear distinguished by its white or cream-colored fur. These bears are predominantly found in the coastal rainforests of British Columbia, Canada. Their unique coloration is due to a recessive gene called "Kermode," which causes leucism—a condition that results in pale fur without the loss of pigmentation in the eyes or skin.

Habitat and Behavior

Spirit Bears prefer dense, temperate rainforests and are often found near rivers and salmon streams, as they rely heavily on salmon for nutrition. They are excellent swimmers and are known for their elusive, solitary nature, which adds to their mystique.
