Example 1: Explain the importance of setting clear business objectives (Total: 4 marks)

Mark Scheme Guidance:

- Clear explanation of why objectives matter (e.g., provides direction, motivates staff).
- Mention of specific types of objectives (e.g., profit, growth, social responsibility).
- Use of relevant business examples or scenarios.

Ideal Response:

> Setting clear business objectives is important because it provides direction for the company, helping employees understand what they need to achieve. Well-defined objectives motivate staff and enable the business to measure progress effectively. For example, a company aiming for a 10% increase in sales will focus its efforts accordingly.

Key to scoring full marks: Be concise, specific, and relate to the scenario.

Example 2: Analyse the advantages and disadvantages of outsourcing production (Total: 8 marks)

Mark Scheme Guidance:

- Analytical points discussing benefits such as cost reduction, focus on core activities.
- Consideration of disadvantages like loss of control, quality issues.
- Balanced discussion with relevant examples.
- Justification of points to support evaluation.

Ideal Response:

> Outsourcing production can reduce costs for a business, as it allows specialization and access to cheaper labor markets. Additionally, it enables the company to focus on core competencies, such as marketing or product design. However, outsourcing also has disadvantages, including the loss of control over quality standards and potential delays in production. For instance, if a manufacturer outsources to a supplier with unreliable delivery, it could harm customer satisfaction. Overall, while outsourcing offers cost benefits, firms must weigh these against potential risks to maintain quality and reliability.

Key to scoring: Present a balanced view with clear analysis and relevant examples.
